CREATE WITH PURPOSE

Choose DIY projects that add meaning or visual impact.

SPEND WITH INTENTION

Compare the real cost before deciding to make or buy.

How to use this workbook

Work through the decisions before you start buying supplies.

1. DREAM

Define how you want the wedding to look and feel.

2. DECIDE

Choose what to make, buy, borrow, rent, or skip.

3. PRICE

Estimate the real cost of every DIY project.

4. PLAN

Give each project a realistic deadline.

5. DELEGATE

Decide what others can make, move, organize, or set up.

REMEMBER

A handmade wedding is successful because it feels personal — not because you made everything yourself.

BUY

Best when the finished item costs less than the supplies or saves valuable time.

BORROW

Best for common items friends or family already own.

RENT

Best for bulky items you do not want to store.

SKIP

Best when the wedding works perfectly well without it.
