WELCOME TO HOME MAINTENANCE MADE SIMPLE

Home care becomes easier when you know what to check, what to record, and what to handle next.

NOTICE

Check your home regularly and record what you find.

ORGANIZE

Keep maintenance records, warranties, repairs, filters, and service information together.

ACT

Choose the most important next steps instead of trying to do everything at once.

THE GOAL

A simple home-care system you can repeat year after year.

Small checks. Clear records. Smarter next steps.

TemplateTrove.com
