Decluttering Workbook for Busy Families

30 DAILY MICRO-PROJECTS

INK-SAVER EDITION

Declutter • Decide • Reset • Maintain

TemplateTrove.com

WELCOME TO YOUR 30-DAY HOME RESET

You do not need to declutter your entire home today.
You only need to make one useful decision at a time.

YOUR GOAL FOR THE NEXT 30 DAYS

Create a home that is easier for your family to use, reset, and maintain.

DECLUTTER

Remove what no longer deserves space.

DECIDE

Choose what stays and where it belongs.

RESET

Make everyday spaces easier to use.

REMEMBER

Progress matters more than perfection.

TemplateTrove.com

HOW TO USE THIS WORKBOOK

Follow the 30 days in order or adapt the pace to fit your family.

If a day's project doesn't apply to your home, use that day to repeat a clutter hotspot, catch up, or tackle another space that needs attention.

1. READ THE DAY'S PROJECT

Focus only on the area listed.

2. CHOOSE YOUR TIME

Use 10, 20, or 30+ minutes.

3. SORT AND DECIDE

Keep, relocate, donate, recycle, or discard.

4. RESET THE SPACE

Give the remaining items clear homes.

5. RECORD WHAT WORKED

Use your notes to improve the next reset.

BUSY DAY?

Complete one drawer, shelf, basket, or surface. A smaller project still counts.

SHORT ON TIME?

Complete the Starting Point Assessment, Decision Rules, and Donation Zones pages, then begin Day 1. Come back to the other planning pages when you have time.

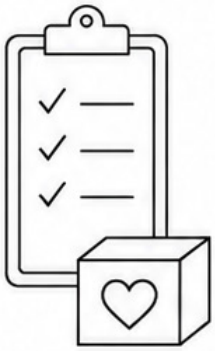

- ☐ I will work alone
- ☐ We will work as a family
- ☐ We will use a mix of both
